

Radar Riskelia

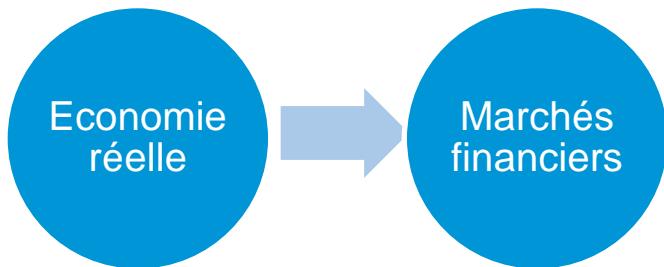

Analyse comportementale des marchés financiers

Jean-Jacques Ohana, Président

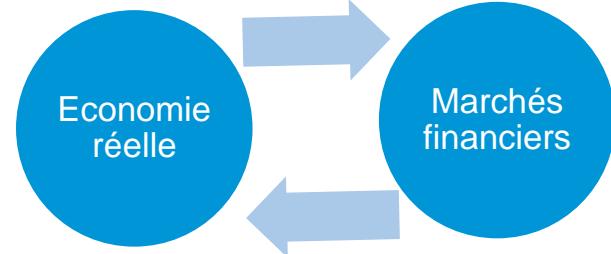

Le concept de réflexivité de Soros

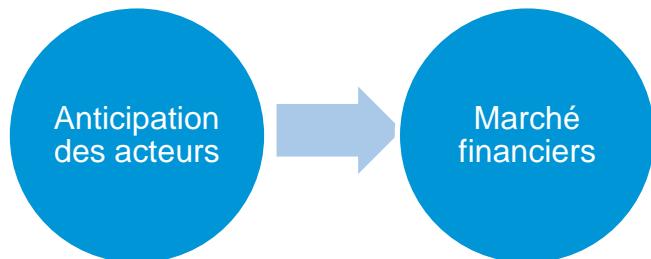

Les causes et les effets sont dissociés

Boucles de rétroaction positive

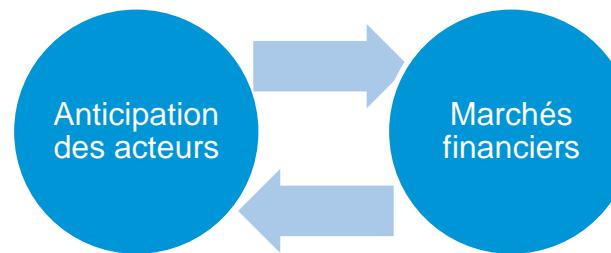

Les prix reflètent l'évolution de l'économie réelle

Les marchés reflètent l'anticipation des acteurs

Les prix des actifs cotés façonnent l'économie réelle

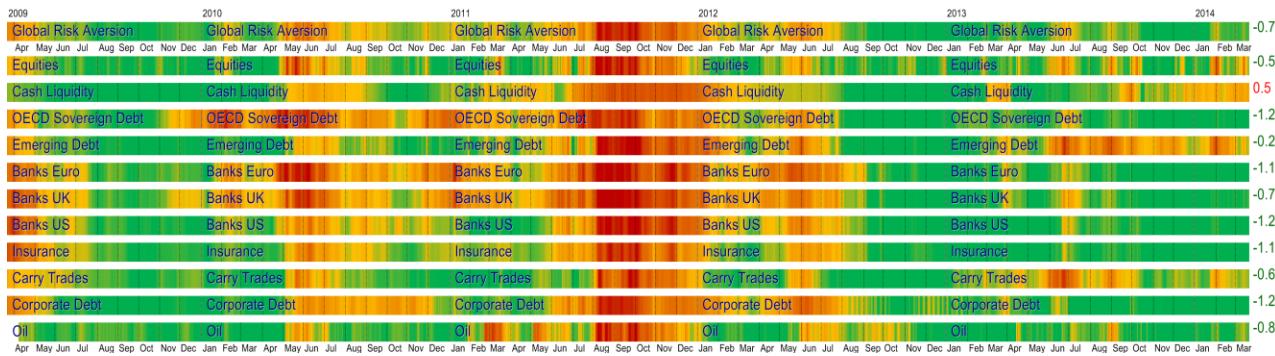

Les prix des actifs financiers influencent et modifient les anticipations des acteurs

Les signaux du Radar

Les conditions financières restent favorable à la prise de risque

Des opportunités d'investissement sur les actions européennes dans un environnement durable de taux bas : ne pas délaisser les obligations
