Limit pts away

Margin Required: USD 600.85, GBP 396.29

MARGIN REQUIRED:
This is how much money you'll need available to open your trade. You can find out how we calculate margins on our website.

THE ESSENTIALS

Everything you need to place a trade in seconds. But don't miss out on the rest the deal ticket has to offer.

CFD Ticket

Wall Street Cash

Deal Order to open

Size 1 (Min: 0.5 Contract)

Currency USD

Force Open

16032.3 16034.1

FORCE OPEN

Want to place a deal in the opposite direction to an existing position on the same market? Tick so the positions don't net off.

SIZE

The number of contracts you want to trade. Check the market's contract details to see how much one CFD contract is worth.

SELL/BUY PRICES

The price at which you can sell or buy one contract of this market with IG. The difference between these prices is our spread.

TAKE MORE CONTROL

Some size and price options to increase your chances of successful execution.

Advanced options

Size: Full size only, Accept partial fill

Price: Current price, points through current, Market order

SIZE

Trading in a large size? If you tick 'accept partial fill' and we can't fill your entire order, we'll fill you at the maximum size possible.

PRICE

Volatile conditions? Reduce your chance of rejection by setting a number of points through the current price that you'd accept as your opening level.

MARKET ORDER

Size more important than price? Tick to be filled at the best available price for your size. Remember you could get a worse price level than indicated.

TELL US WHEN TO CLOSE YOUR TRADE

We can close your position automatically if the market hits a level you specify. Stop and limit distances will be relative to your opening price.

Close Conditions

Stop 20 pts away £132 Est. 16052.3 / 16014.1

Guaranteed Stop

Limit pts away

STOP

Tell us where to close your position if it moves against you. Basic stops are free, but you might get a worse level than requested if the market moves quickly or gaps through your stop level.

LIMIT

Decide where to lock in your profit and exit a winning trade if the market moves in your favour.

GUARANTEED STOP

Ensure that your position is closed at exactly the level you specify, even if the market gaps. Incurs an extra spread premium or commission charge.

POINTS/GBP

Set your conditions by market points or by monetary value.

ANATOMY OF THE IG DEAL TICKET

THE ORDER TAB

FILL THIS IN TO TRADE IN THE FUTURE, IF THE MARKET MEETS YOUR SPECIFIED CONDITIONS.

MARGIN REQUIRED:
This is how much money you'll need available to open your trade. See how we calculate margins.

SUBMIT:
Hit the green button to activate your order.

THE ESSENTIALS

Set the conditions upon which you want to enter the market.

CURRENT LEVEL
These are our current sell and buy prices for this market.

DIRECTION
Do you want to buy or sell at the price level you'll choose?

ORDER LEVEL
At which price would you like your order to be triggered?

TYPE
Relative to the current price, is your order entering the market at a less favourable price (a stop) or a more favourable price (a limit)?

SIZE
How many contracts would you like to trade?

SET AN EXPIRY TIME FOR YOUR ORDER

How long do you want this order to run for?

CANCELLED
Your order can remain active until ('good till') you cancel it.

DATE/TIME
Or you can set a specific expiry date and time.

WHY NOT ADD AN ORDER TO CLOSE?

If your order is triggered a position will be opened. Here, you can tell us where to close it. Stop and limit distances will be relative to your opening price.

STOP
Tell us where to close the trade if the market moves against you. Basic stops are free, but you might get a worse level than requested if the market moves quickly or gaps through your stop level.

LIMIT
Decide where to lock in your profits and exit a winning trade if the market moves in your favour.

GUARANTEED STOP
Ensure that your position is closed at exactly the level you specify, even if the market gaps. Incurs an extra spread premium or commission charge.

POINTS/GBP
Set your conditions by market points or by monetary value.
