Settlement	You must ensure at all times that you are fully aware of the settlement reference price level and the referencing methods which are available in the "Get Info" tab under the particular product on the platform and also as detailed below. If the event described occurs, the digital 100 will settle with a value of 100. In all other events the digital 100 will settle at zero. If a market settles exactly on a digital 100 barrier after such rounding, that market will be taken to have settled above the barrier for the purposes of contract settlement. For instance, if the FTSE® 100 closes exactly 20 points up, the FTSE®+10/+20 will settle at zero and the FTSE® +20/+30 will settle at 100. OneTouch digital 100s will settle at 100 if the underlying market touches or goes through the relevant barrier at any time up to and including the specified expiry time. For daily index markets the official settlement will counts. Tunnel digital 100s will settle at 100 if the underlying market does not touch or go through either barrier stated at any time up to and including the official market settlement. Relevant net changes will be measured from previous day's official close as recorded by Bloomberg Prints (E&OE).
Quotation	Daily China A50 quotations are based on the achievement of specified daily price changes in the futures markets for each of the nominated indices. (Note: China A50 = FTSE China A50.)
Expiry	Settled basis the official settlement price of the FTSE Xinhua China A50 Futures contract as reported by Bloomberg. The underlying market may not have an official settlement if the typhoon flag is raised, in this instance this market will be settled basis the last tick reported by Bloomberg. For more information, please refer to the "Get Info" tab under the particular product on the platform.
Dealing Hours	Daily China A50 futures and China A50 futures Ladder: From 09.01 (SGT) to 16:55 which is five minutes before the close of the Xinhua China A50 Index Futures on the Singapore Exchange (SGX). The closing time for the futures is normally 16.30 (SGT). China A50 digital 100s are settled based upon the official daily settlement price of the China A50 index futures as reported by SGX. For other types of digital 100s, please refer to the "Get Info" tab under the particular product on the platform.
