Settlement

You must ensure at all times that you are fully aware of the settlement reference price level and the referencing methods which are available in the "Get Info" tab under the particular product on the platform and also as detailed below.

Note that Daily Australia 200 Digital 100s will be settled based upon the official settlement level of the ASX200. This official settlement is not announced until several minutes after the close of the market and may differ from the market's 16.00 (Sydney time) level. 1pm, hourly and 20-minute Australia 200 Digital 100s will settle basis the last cash print of the relevant underlying index (ASX 200 as recorded by Bloomberg (E&OE)) before the stated time of expiry which also includes the final hourly and 20-minute markets.

If the event described occurs, the digital 100 will settle with a value of 100. In all other events, the digital 100 will settle at zero. For the purpose of digital 100s, the Australia 200 prices will be rounded to one decimal place. If a market settles exactly on a digital 100 barrier after such rounding, that market will be taken to have settled above the barrier for the purposes of contract settlement. For instance, if the FTSE® 100 closes exactly 20 points up, the FTSE®+10/+20 will settle at zero and the FTSE® +20/+30 will settle at 100.

OneTouch digital 100s will settle at 100 if the underlying market touches or goes through the relevant barrier at any time up to and including the specified expiry time. For daily index markets the official settlement will count.

Tunnel digital 100s will settle at 100 if the underlying market does not touch or go through either barrier stated at any time up to and including the official market settlement. Relevant net changes will be measured from previous day's official close as recorded by Bloomberg Prints (E&OE).

<p>Quotation</p>	<p>Daily Australia 200 quotations are based on the achievement of specified daily price changes in the cash markets for each of the nominated indices. (Note: Australia 200 = ASX 200)</p> <p>Weekly quotations are based on the official settlement level of the market concerned (cash ASX) on the last trading day of the week in question.</p> <p>1pm (Sydney time) Australia 200 markets are based on prices and price changes in the ASX 200 cash market. Price changes are measured from the starting level displayed by us online, to the last print recorded by Bloomberg (E&OE) before 13.00 Sydney time on the day in question.</p> <p>For Australia 200 previous close to 11am, the change is measured from official settlement in the previous day's market to the last print recorded by Blomberg (E&OE) before 11:00 (Sydney time) of the ASX 200. Positions will be accepted until two minutes before the stated settlement time.</p> <p>OneTouch levels are measured by reference to trades recorded by Bloomberg between the start of normal trading and the achievement of the final settlement level of the market each day (E&OE). Hi/Lo and Tunnel levels are measured with reference to the net change in the market (as measured from Bloomberg prints) relative to the previous trading day's settlement level, including the net change on the final settlement level of the market each day (E&OE).</p>
<p>Expiry</p>	<p>Settlement prices for these markets are obtained using the cash price of the ASX 200 (as reported by the exchange) in our internal pricing system at the stated time of expiry. Positions will be accepted until one minute before the stated settlement time.</p> <p>For more information, please refer to the "Get Info" tab under the particular product on the platform.</p>
<p>Dealing Hours</p>	<p>Daily Australia 200 and Daily Australia 200 Ladder: From 10.01 until 15.59 (Sydney time).</p> <p>For other types of digital 100s, please refer to the "Get Info" tab under the particular product on the platform.</p>
