Settlement	<p>You must ensure at all times that you are fully aware of the settlement reference price level and the referencing methods which are available in the "Get Info" tab under the particular product on the platform and also as detailed below.</p> <p>If the event described occurs, the digital 100 will settle with a value of 100. In all other events, the digital 100 will settle at zero. For the purpose of digital 100s, the France 40 prices will be rounded to two decimal places.</p> <p>If a market settles exactly on a digital 100 barrier after such rounding, that market will be taken to have settled above the barrier for the purposes of contract settlement. For instance, if the FTSE® 100 closes exactly 20 points up, the FTSE®+10/+20 will settle at zero and the FTSE® +20/+30 will settle at 100.</p> <p>OneTouch digital 100s will settle at 100 if the underlying market touches or goes through the relevant barrier at any time up to and including the specified expiry time. For daily index markets the official settlement will count. Tunnel digital 100s will settle at 100 if the underlying market does not touch or go through either barrier stated at any time up to and including the official market settlement. Relevant net changes will be measured from previous day's official close as recorded by Bloomberg Prints (E&OE).</p>
Quotation	Daily France 40 quotations are based on the achievement of specified daily price changes in the cash markets for each of the nominated indices. (Note: France 40 = CAC 40)
Expiry	<p>Settlement prices are based on cash price of the relevant underlying index (as reported by the exchange) in our internal pricing system at the stated time of expiry. Positions will be accepted until one minute before the stated settlement time.</p> <p>'Stated settlement time' refers to the second named time in a particular digital 100s market (e.g. 14.00 for a FTSE 13.00 – 14.00 market)</p> <p>For more information, please refer to the "Get Info" tab under the particular product on the platform.</p>

<p>Dealing Hours</p>	<p>Daily France 40 and Daily France 40 Ladder: Trades will be accepted from 08.01 (London time) until one minute before the close of the underlying market. The closing time for the France 40 is normally 16.30 (London time). Note that digital 100s will be settled based upon the official settlement level of the index. This official settlement is not announced until several minutes after the close of the market and may differ from the market's 16.30 level.</p> <p>For other types of digital 100s, please refer to the "Get Info" tab under the particular product on the platform.</p>
<p>Margin Requirement</p>	<p>The margin requirement for buying a digital 100 is equal to the contract value (which is the opening price multiplied by the contract size).</p> <p>The margin requirement for selling a digital 100 is equal to (100 minus the opening price) multiplied by the contract size.</p>
