| Settlement | You must ensure at all times that you are fully aware of the settlement reference price level and the referencing methods which are available in the "Get Info" tab under the particular product on the platform and also as detailed below.<br><br>If the event described occurs, the digital 100 will settle with a value of 100. In all other events the digital 100 will settle at zero. For the purpose of digital 100s, the Hong Kong HS50 prices will be rounded to the nearest whole number.<br><br>If a market settles exactly on a digital 100 barrier after such rounding, that market will be taken to have settled above the barrier for the purposes of contract settlement. For instance, if the FTSE® 100 closes exactly 20 points up, the FTSE®+10/+20 will settle at zero and the FTSE® +20/+30 will settle at 100.<br><br>OneTouch digital 100s will settle at 100 if the underlying market touches or goes through the relevant barrier at any time up to and including the specified expiry time. For daily index markets the official settlement will count. Tunnel digital 100s will settle at 100 if the underlying market does not touch or go through either barrier stated at any time up to and including the official market settlement. Relevant net changes will be measured from previous day's official close as recorded by Bloomberg Prints (E&OE). |
| Quotation | Daily Hong Kong HS50 quotations are based on the achievement of specified daily price changes in the futures markets for each of the nominated indices. (Note: Hong Kong HS50 = Hang Seng) |
| Expiry | Settled basis the official settlement of the futures. The underlying market may not have an official settlement if the typhoon flag is raised, in this instance this market will be settled basis the last tick reported by Bloomberg.<br><br>For more information, please refer to the "Get Info" tab under the particular product on the platform. |
