Settlement	<p>You must ensure at all times that you are fully aware of the settlement reference price level and the referencing methods which are available in the "Get Info" tab under the particular product on the platform and also as detailed below.</p> <p>If the event described occurs, the digital 100 will settle with a value of 100. In all other events, the digital 100 will settle at zero.</p> <p>If a market settles exactly on a digital 100 barrier after such rounding, that market will be taken to have settled above the barrier for the purposes of contract settlement. For instance, if the FTSE® 100 closes exactly 20 points up, the FTSE®+10/+20 will settle at zero and the FTSE® +20/+30 will settle at 100.</p> <p>OneTouch digital 100s will settle at 100 if the underlying market touches or goes through the relevant barrier at any time up to and including the specified expiry time. For daily index markets the official settlement will count. Tunnel digital 100s will settle at 100 if the underlying market does not touch or go through either barrier stated at any time up to and including the official market settlement. Relevant net changes will be measured from previous day's official close as recorded by Bloomberg Prints (E&OE).</p>
Quotation	<p>Daily China 300 quotations are based on the achievement of specified daily price changes in the futures markets for each of the nominated indices. (Note: China 300 = CSI 300)</p>
Expiry	<p>Settles basis the last CSI 300 Index Futures tick (as reported by Bloomberg) prior to the official market settlement. If no settlement level is provided by the exchange markets will settle basis the last available traded price on that day.</p> <p>For more information, please refer to the "Get Info" tab under the particular product on the platform.</p>

<p>Dealing Hours</p>	<p>Daily China 300 Futures and China 300 Futures Ladder. From 09:31 to 11:30 (SGT) and then from 13:01 (SGT) until 14:58 which is two minutes before the close of the China Securities Index (CSI300) futures on the China Financial Futures Exchange (CFFEX). The closing time of the futures is normally 15:00 (SGT). China 300 digital 100s are settled based upon the last CSI 300 Index Futures tick (as reported by Bloomberg) prior to the official market settlement. If no settlement level is provided by the exchange, markets will settle based upon the last available traded price on that day.</p> <p>For other types of digital 100s, please refer to the "Get Info" tab under the particular product on the platform.</p>
<p>Margin Requirement</p>	<p>The margin requirement for buying a digital 100 is equal to the contract value (which is the opening price multiplied by the contract size).</p> <p>The margin requirement for selling a digital 100 is equal to (100 minus the opening price) multiplied by the contract size.</p>
