Settlement	<p>You must ensure at all times that you are fully aware of the settlement reference price level and the referencing methods which are available in the "Get Info" tab under the particular product on the platform and also as detailed below.</p> <p>If the digital 100 statement is true, the price settles at 100. If it isn't true, it settles at 0. If the market finishes at the exact same value at the point of expiry, the digital 100 would be considered up, and the price would settle at 100. Your profit or loss depends on the amount per point you've staked, and the difference between your opening price and the digital 100's closing price.</p> <p>OneTouch digital 100s will settle at 100 if the underlying market touches or goes through the relevant barrier at any time up to and including the specified expiry time. For daily index markets the official settlement will count. Tunnel digital 100s will settle at 100 if the underlying market does not touch or go through either barrier stated at any time up to and including the official market settlement. Relevant net changes will be measured from previous day's official close as recorded by Bloomberg Prints (E&OE).</p>
