Settlement	<p>You must ensure at all times that you are fully aware of the settlement reference price level and the referencing methods which are available in the "Get Info" tab under the particular product on the platform and also as detailed below.</p> <p>Wall Street Up/Down 5-minute positions settle based on prices of the Dow cash index (as reported by the exchange) in our internal pricing system at the stated time of expiry. We will accept trades until 30 seconds before the second named time (i.e. 30 seconds before expiry of the five-minute period in question).</p> <p>If the digital 100 statement is true, the price settles at 100. If it isn't true, it settles at 0. If the market finishes at the exact same value at the point of expiry, the digital 100 would be considered up, and the price would settle at 100. Your profit or loss depends on the amount per point you've staked, and the difference between your opening price and the digital 100's closing price.</p> <p>OneTouch digital 100s will settle at 100 if the underlying market touches or goes through the relevant barrier at any time up to and including the specified expiry time. For daily index markets the official settlement will count. Tunnel digital 100s will settle at 100 if the underlying market does not touch or go through either barrier stated at any time up to and including the official market settlement. Relevant net changes will be measured from previous day's official close as recorded by Bloomberg Prints (E&OE).</p>

DIGITAL 100s ON CASH INDEX CFDs (CONTINUED)

<p>Quotation</p>	<p>Wall Street quotations are based on the achievement of specified levels in the Wall Street cash markets, at any time up to and including the official market settlement (or 18.00 for the Wall Street 6pm OneTouch).</p> <p>Daily Wall Street quotations are based on the achievement of specified daily price changes in the cash markets for each of the nominated indices. (Note: Wall Street = DJIA).</p> <p>Weekly quotations are based on the official settlement level of the market concerned (cash Wall Street) on the last trading day of the week in question.</p> <p>OneTouch levels are measured by reference to trades recorded by Bloomberg between the start of normal trading and the achievement of the final settlement level of the market each day (E&OE) (or the first new print recorded by Bloomberg (E&OE) at 18.00 London time for the Wall Street 6pm OneTouch).</p> <p>Hi/Lo and Tunnel levels are measured with reference to the net change in the market (as measured from Bloomberg prints) relative to the previous trading day's settlement level, including the net change on the final settlement level of the market each day (E&OE).</p> <p>6pm Wall Street quotations are based on the achievement of prices and price changes in the Wall Street markets. Changes are measured from the starting level displayed by us online to the cash price of the relevant underlying index (as reported by the exchange) in our internal pricing system at 18.00 London time (for the 6pm Wall Street).</p>
<p>Expiry</p>	<p>Settlement prices are based on cash price of the relevant underlying index (as reported by the exchange) in our internal pricing system at the stated time of expiry. Positions will be accepted until one minute before the stated settlement time.</p> <p>Stated settlement time' refers to the second named time in a particular digital 100s market (e.g. 14.00 for a FTSE 13.00 –14.00 market).</p> <p>For more information, please refer to the "Get Info" tab under the particular product on the platform.</p>
<p>Dealing Hours</p>	<p>Daily Wall Street and Daily Wall Street Ladder: 24 hours (with gaps). Trades will be accepted until one minute before the close of the market. The closing time for Wall Street is normally 21.00 (London time). Note that, although Wall Street typically closes at 21.00, all digital 100s will be closed based upon the official daily settlement. This settlement may not be posted until several minutes after the close of normal trading each day, and can differ from the 21.00 price of the underlying index.</p> <p>For other types of digital 100s, please refer to the "Get Info" tab under the particular product on the platform.</p>
<p>Margin Requirement</p>	<p>The margin requirement for buying a digital 100 is equal to the contract value (which is the opening price multiplied by the contract size).</p> <p>The margin requirement for selling a digital 100 is equal to (100 minus the opening price) multiplied by the contract size.</p>
