IG OIL - BRENT CRUDE BULL / BEAR KNOCK-OUTS CFD PRODUCT DETAILS

Settlement Basis	Refer to the information on the deal ticket for the last dealing date and expiry date. The knock-out is automatically closed off at 0 if the relevant bid/ask reaches the knock-out level before expiry. Positions not closed by expiry date will settle based on the Oil - Brent Crude Spot CFD price, as reported by IG, +/- closing spread.
In-Hours Pricing Methodology	Bull (underlying IG offer price - knock-out level) + knock-out premium Bear (knock-out level - underlying IG bid price) + knock-out premium The premium is included in our spread, so you pay it when you buy to open and receive it back if you sell to close before your knock-out level is triggered. Refer to the following link for calculations of price and funding costs: https://www.ig.com/sg/commodities
Funding Cost	Commodity funding is based on the market cost of carry including an admin fee of 2.5% per annum
Additional Notes	Knock-outs are CFD's on a bought option, which means you cannot go short on them. You can buy a bull knock-out if you expect the market to rise, and buy a bear knock-out if you expect the market to fall. Knock out-levels cannot be changed once the trade has been placed.
