Quotation	Our spread on daily options depends on a range of factors including the level of the price quotation and the time to expiry.
Expiry	A daily option is cash settled and thus, expires on a daily basis. Settles basis official daily close of WTI on NYMEX. Please refer to the "Get Info" tab for more information.
Dealing Hours	Daily US Crude can be traded from 21.00 to 19.27 (London time). Please refer to the "Get Info" tab on the platform.
Margin Requirement	The margin requirement for buying a daily option is the opening price (or premium) multiplied by the contract value (per point in the underlying market). This is the maximum possible loss on the position. The margin requirement for selling a daily option is equal to the margin required for an equivalent sized CFD in the underlying market, and never more than the margin required for an equivalent sized CFD in the underlying market.
Rollover	Options are not available for rollover, regardless of any instructions held on your account. All options settle basis a predetermined expiry rule. To find out more, take a look at each market's individual information in-platform.
Additional Notes	When you trade in a currency other than your base currency your profit or loss will be realised in that currency and will be booked to your account in that currency. As a default, we will automatically convert any positive or negative balance on your account in a currency other than your base currency to your base currency when your position is closed. You may change this default at any time via our trading platform or by calling us.
