IG US operates as a subsidiary of IG Group Holdings plc, a global provider of financial trading to retail customers which is based in the UK and is a member of the IG Group. Headquartered in Chicago, IG US acts as a dealer for foreign exchange contracts and options on foreign exchange contracts to customers that reside in the United States. IG US has committed 100% of its assets to support its customers’ trading activity and hedging in these products.

CUSTOMER BUSINESS ACTIVITIES

TYPES OF CUSTOMERS:

Institutional (Introducing Brokers, Commodity Pool Operators, Commodity Trading Advisors), Eligible Contract Participants (“ECPs”) and Retail Customers.

MARKETS AND CURRENCIES TRADED:

Foreign exchange contracts and options on foreign exchange contracts that are not traded on any exchange.

PRIME BROKERS AND/OR LIQUIDITY PROVIDERS:

IG US’ liquidity is provided by IG Markets Limited, a UK based IG Group company registered with the Financial Conduct Authority, and JP Morgan bank. JP Morgan also acts as a prime broker in foreign exchange to IG US.

POLICIES AND PROCEDURES CONCERNING THE CHOICE OF BANK DEPOSITORIES, CUSTODIANS AND COUNTERPARTIES:

IG US holds its operating and customer funds in accounts at large, highly reputable banks. Before selecting a new bank depository, a thorough review of the bank’s credit rating and financial information is completed. IG US uses an evaluation process to determine the financial condition of the bank. For any bank where IG US holds customer funds, thorough reviews are done at least annually to ensure its continued credit worthiness.

ECP COUNTERPARTY MATERIAL RISKS

When an ECP’s total deposited funds are insufficient to cover any trading losses incurred, an ECP credit risk arises. An ECP’s total deposited funds may be insufficient to cover trading losses if there is a sudden and significant movement in the market relating to an instrument in which an ECP client has in an open position. IG US mitigates the risks associated with ECP trading activities by requiring ECPs to deposit sufficient margin. IG US does not allow ECPs to enter into trades if the ECP has not deposited a sufficient amount of margin. In addition, IG US’ trading platform also manages this risk by automatically closing out of any ECP’s open positions when there is insufficient margin on deposit.

ECP COUNTERPARTY MATERIAL RISKS (CONTINUED)

IG US also hedges its customer transactions through an affiliate ECP. This IG affiliate also hedges customer transactions with other affiliates through the world. If there is a sudden and significant movement in the market relating to an instrument for which our customers or any of our affiliate’s customers has an open position, then the IG Group could incur significant losses.

The IG Group mitigates the risks associated with customer trading activities by requiring all IG Group customers to deposit sufficient margin, and hedging its exposure in the underlying market. In addition, the IG Group’s trading platform also manages this risk by automatically closing out of any customer open positions when there is insufficient margin on deposit.

MATERIAL COMPLAINTS OR ACTIONS

IG US is required to disclose any material administrative, civil, enforcement or criminal complaints or actions filed against IG US during the last three years. Currently, IG US does not have any type of material complaints or actions filed against it. Please visit the NFA BASIC system at www.nfa.futures.org/basicnet for additional information regarding regulatory complaint issues.
