Premium Services

You can contact us on +44 (20) 7633 5430 or email sales.en@ig.com about opening an account. We're here 24 hours a day, except from 6am to 4pm on Saturday (UTC+8).

Key in login details

A screenshot of the IG login page. It features a red header with the IG logo, an 'Application Form Full' button, and a 'Go back to the homepage' link. The login form includes fields for 'Username' and 'Password', a 'Forgotten your login details?' link, and a 'Remember my username' checkbox. A warning message states: 'Warning: only tick this box if you are using a trusted computer'. A green 'Log in' button is at the bottom. To the right, there is a promotional image of a smiling couple looking at a smartphone, with the text 'Everything's better with friends' and a referral program offer: 'Earn up to \$51,000* by introducing your friends to us. With our boosted rewards you'll get \$150 for every friend you refer and they'll save up to 40%* on their trading fees.'

Getting Started

Logging in | **MyIG Dashboard** | Funding | Withdrawal | Settings

The screenshot shows the MyIG Dashboard interface. At the top, it says "Hello". Below that is a section for "Add an account" with a plus icon and the text "Trade CFDs, MT4 and more". This is marked with callout 'a'. Below that is a section for "CFDs" with a table showing account details. The table has columns for "Funds", "Margin", "Available", and "Profit/Loss", all showing "\$0.00". This table is marked with callout 'c'. Below the table are two buttons: "Open platform" (marked with callout 'b') and "+ Add funds" (marked with callout 'd'). At the bottom, there is a section for "Develop your trading skills with risk-free demo accounts." with a button "Open demo accounts" (marked with callout 'e') and a note: "Demo account is not a live trading account and thus all funds and trades are virtual."

CFDs	Funds	Margin	Available	Profit/Loss
CFD / Account ID: IT/9A	\$0.00	\$0.00	\$0.00	\$0.00

- a** Add an additional CFD or MT4 account (Optional)
- b** Click to enter the trading platform
- c** Click to view funding methods
- d** Funds: Total cash balance on your account
Margin: Minimum required Equity (Funds +/- running Profit/Loss) to maintain your positions
Available: Funds available to deal or withdraw
Profit/Loss: Aggregate profit or loss of all open positions
- e** Add a free demo account to practice trading account (Recommended)

Getting Started

Logging in | MyIG Dashboard | **Funding** | Withdrawal | Settings

The screenshot shows the IG MyIG Dashboard. At the top, there is a navigation bar with the IG logo on the left and links for 'Inbox', 'Community', 'Academy', 'Help', and 'My IG' on the right. Below this is a secondary navigation bar with 'Dashboard', 'Live accounts' (highlighted with a red box), 'Demo accounts', and 'Settings'. The main content area is divided into two columns. The left column, titled 'You are viewing:', contains a dropdown menu set to 'CFD' and a table with account details: Account ID (ITJ9A), Running profit / loss (\$0.00), and Funds (\$0.00). Below the table is a list of menu items: Overview, Payments, Deposit funds (highlighted with a red box), Withdraw funds, Transfer funds, Verification, Card / bank details, Currency conversion, Send proof of payment, Trade analytics, History, Statements, and Corporate actions. The right column, titled 'Deposit funds', shows three options: Card, Faster Payment System (HKD only), and Bank, each with a right-pointing arrow. To the right of these options is a box titled 'Available to deal \$ -' containing a table of payment methods and their processing times: Card (Typically instant), FPS (Typically within 1 business day), and Bank (Local Hong Kong Transfer: Same Day, International Transfer: 1-3 days). At the bottom of this box is a disclaimer: 'All payments are subject to money laundering checks, so we may request additional information – we'll contact you if so.'

Under the “Live accounts” tab, go to “Deposit funds” and select the method which you would like to credit funds to the trading account. There will be instructions shown for each individual methods be it via bank transfer or card.

Getting Started

Logging in | MyIG Dashboard | Funding | **Withdrawal** | Settings

The screenshot displays the IG MyIG Dashboard interface. At the top, the navigation bar includes 'Inbox', 'Community', 'Academy', 'Help', and 'My IG'. Below this, the main navigation tabs are 'Dashboard', 'Live accounts' (highlighted with a red box), 'Demo accounts', and 'Settings'. The left sidebar menu lists various account management options, with 'Withdraw funds' highlighted by a red box. The main content area is titled 'Withdraw funds' and features a light blue warning box: 'To avoid delays, withdraw via a method you've previously deposited with.' Below this, there are two columns of withdrawal options: 'Cards' and 'Bank'. The 'Cards' section states that withdrawals will usually reach the card within two to five business days and provides a link to 'Withdraw with card'. The 'Bank' section states that bank withdrawals can take between 1 to 3 working days and provides a link to 'Withdraw to bank account'. At the bottom of the main content area, there is a section titled 'Important Information' with two bullet points: 'All payments are subject to security checks and we may request more info from you before returning your funds, such as a screenshot of your bank statement or proof of identity.' and 'We'll normally remit money in the same method and to the same place from which it was received. However, we may consider a suitable alternative at our absolute discretion.'

Under the “Live accounts” tab, go to “Withdraw funds” and select the method which you would like for withdrawal. You will need to key in either the card/bank details which you will like the funds to be credited to.

Getting Started

Logging in | MyIG Dashboard | Funding | Withdrawal | **Settings**

The screenshot shows the IG Settings page. At the top, there is a navigation bar with 'Inbox', 'Community', 'Academy', and 'Help' links, and a user profile icon labeled 'My IG'. Below this is a secondary navigation bar with 'Dashboard', 'Live accounts', 'Demo accounts', and 'Settings' (which is highlighted with a red box). The main content area is divided into three sections, each highlighted with a red box and annotated with a red line pointing to a descriptive text block:

- Your details**: This section includes 'Personal details' (highlighted), 'Username and password', and 'Refer a friend'. The annotation states: "Edit your personal details, username and password, and access your Refer a friend unique link here".
- Trade settings**: This section includes 'Data feeds', 'Rollovers', 'ProRealTime', 'Dealing US stock (W-8BEN)', and 'API keys'. The annotation states: "Activate your data feeds (for share exchanges), change settings for rollovers (for futures, activate ProRealTime, fill in W-8BEN form (for dealing US stocks) and create API keys here".
- Platform preferences**: This section includes 'Price and dealing alerts' and 'Marketing communication'. The annotation states: "Activate email or mobile push notifications on alerts and deals, and subscribe to marketing communication here".

Customising your Workspace

The screenshot shows the IG trading platform interface. Key elements are highlighted with red boxes and letters:

- a**: My Workspace dropdown menu.
- b**: Search bar and navigation menu (Indices, FX, Cryptocurrency, Shares, Commodities, Bonds and Rates, ETFs, Options, Knock-Outs).
- c**: WATCHLISTS button.
- d**: Positions, Orders, History, Alerts sub-menu.
- e**: News, Signals, Econ Calendar sub-menu.
- f**: Settings button.
- g**: Hide menu button.
- h**: Add funds button.
- i**: 1-Click button.
- j**: Help/FAQs button.
- k**: Trade Notifications, Tweets, and All buttons.

The screenshot shows the 'Settings' window in the IG trading platform. The left sidebar contains a list of categories: Indices, FX, Cryptocurrency, Shares, Commodities, Bonds and Rates, ETFs, Options, Knock-Outs, WATCHLISTS, My Watchlist, Popular Markets, New Markets, Weekend Markets, Digital 100s: 5 Min M..., Positions, Orders, History, Alerts, News, Signals, and Econ Calendar. The 'Settings' option at the bottom of the sidebar is highlighted with a red box and labeled 'a'. The main content area is titled 'Settings' and is divided into two sections: 'Deal Settings' and 'Platform settings'. The 'Deal Settings' section includes: 'Deal size' (toggle on, labeled 'b'), 'Notional value' (toggle on, labeled 'c'), 'Stops and limits' (toggle on, labeled 'd'), and 'Show force open in ticket' (toggle on, labeled 'e'). The 'Platform settings' section includes: 'Theme' (radio buttons for Light and Dark), 'Alert sound effect' (toggle on), and 'Price tick indicators' (toggle on). A red box around the 'Platform settings' section is labeled 'f'. A red box around the 'Deal Settings' section is labeled 'a'.

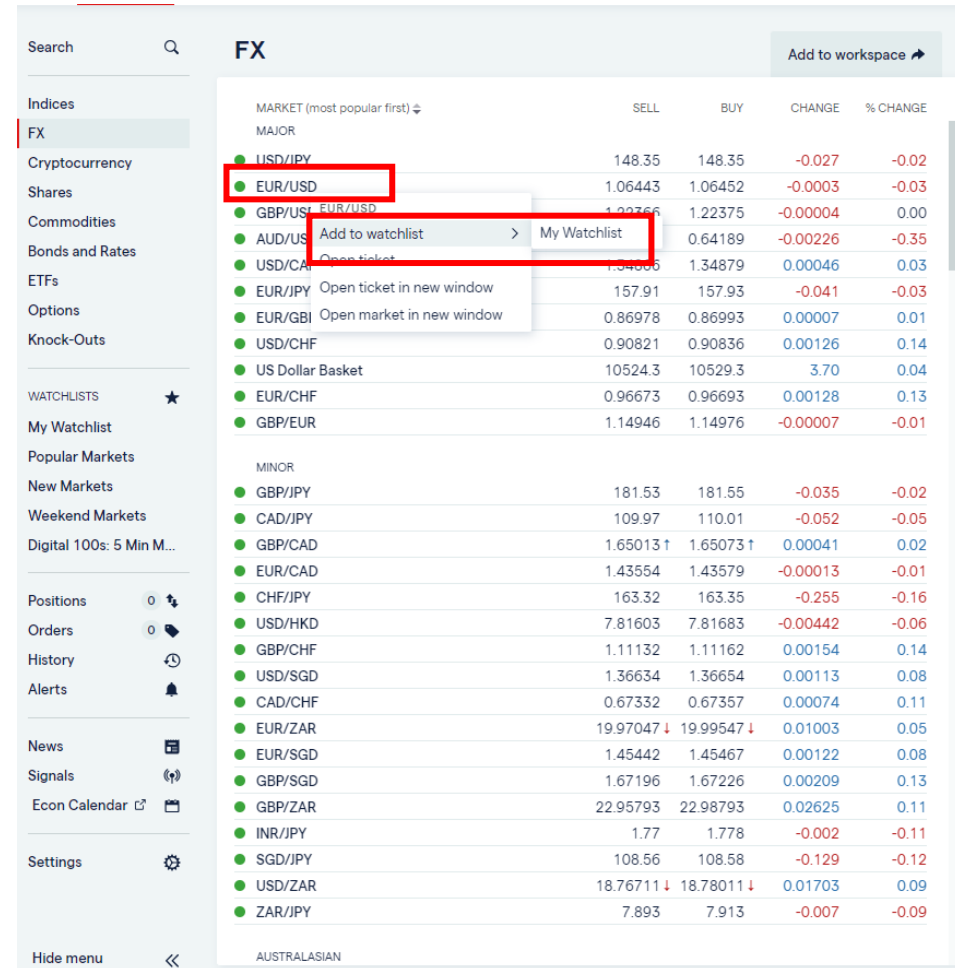

- a Deal and Platform Settings within the web-based trading platform
- b Deal size
- c Notional Value
- d Stops and limits
- e Deal ticket – force open and partial fills
- f Platform setting – theme, alerts sound effect and price tick indicators

Watchlist Creation

You can create a new watchlist by clicking Watchlist > Create Watchlist.

You can then right-click on a market name to add it to your new watchlist. Alternatively you can also click the menu  at the top left of the chart (beside the market name) and select 'add to watchlist'.

Charting Functions

Select preferred contract size and fill up the trade ticket

The screenshot shows a trading platform interface for 'US 500 Cash (\$1)'. The main chart area displays a candlestick price chart with various technical indicators. Several key components are highlighted with red boxes and labeled with letters:

- a**: Timeframe selection menu (Monthly, Weekly, Daily, 4 Hours, 3 Hours, 2 Hours, 1 Hour, 30 Mins, 15 Mins, 10 Mins, 5 Mins, 3 Mins, 2 Mins, 1 Min, 10 Secs, 1 Sec, Tick).
- b**: Instrument selection table showing contract sizes and prices.
- c**: Order type selection (Ask (BUY), Mid, Bid (SELL)).
- d**: Time range selection (1 Day, 1 Week, 1 Month, 3 Months, 6 Months, 1 Year, 2 Years, 5 Years, Go to).
- e**: Chart layout selection (1 Chart, 2 Charts, 3 Charts, 4 Charts).
- f**: Technical indicators list (Aroon, Average True Range, Awesome Oscillator, Bollinger %B, Bollinger Bands, Bollinger Bandwidth, Chaikin Volatility, Commodity Channel Index, Detrended Price Oscillator, Directional Movement, Donchian Channel, Ease of Movement, Exponential Moving Average, Ichimoku, KDJ, Keltner Channel, MACD, Momentum, Money Flow Index, Moving Average, Parabolic SAR, Pivot Point, Rate of Change, RCI, RSI, Standard Deviation, Stochastic, SuperTrend, Volume, Volume Weighted Average Price, Volume Weighted Moving Average, Weighted Moving Average, Williams %R).
- g**: Drawing tools menu (Show drawing toolbar, Snap to HLOC prices, Arrow, Channel, Elliott wave (12345), Elliott wave (ABC), Fibonacci extension, Fibonacci retracement, Gann fan, Gann line, Head and shoulders, Horizontal, Measure tool, Oval, Pitchfork, Point to point, Rectangle, Text, Trend, Triangle, Vertical, Delete all drawings).
- h**: Chart settings menu (HLOC data, Drawings, Indicators, Open Positions, Working Orders, Position preview, Timeline, Price changes, Price line).

The instrument selection table (b) is as follows:

INSTRUMENT	SELL	BUY
US 500 Cash (\$1)	4332.10	4332.70
US 500 Cash (\$50)	4332.10	4332.70
US 500 Cash (\$250)	4332.10	4332.70

The chart area includes a data table for the selected timeframe:

Price	Mid
Highest	4103.94
Lowest	4049.33
Open	4084.01
Close	4103.69
Change	19.68 (0.48%)

Charting Functions

Continuation from previous slide

- a** Select the timeframe for the chart (daily, 4h, 1h etc). The candlestick will reflect the price action for the timeframe chosen
- b** Select the contract size here. '\$' stands for USD (e.g. \$1 stands for USD 1 per point).
- c** Select the timeframe for the chart (daily, 4h, 1h etc). The candlestick will reflect the price action for the timeframe chosen
- d** Select the time period of the price action to be shown (i.e price data for past 6 months, 1 year). You can also scroll your mouse to zoom and out of the period.
- e** Split chart function – to select the number of charts you would like to be displayed
- f** List of indicators available
- g** List of drawing tools available
- h** To enable what is shown on the chart

Placing a Trade

Select preferred contract size and fill up the trade ticket

Select the appropriate **contract size** by clicking on the drop-down arrow on the top left corner of the chart

'\$' stands for USD (e.g. \$1 stands for USD 1 per point)

Note: There may not be a drop-down arrow for all instruments (e.g. shares and ETFs)

Trade Ticket

Trade Ticket

Deal | Order | Alert | Info

The 'Deal' tab is an instruction for the trading platform to buy or sell an underlying asset at the current best available price.

The screenshot shows the 'Deal' tab of a trading platform. It features a 'SELL' button with a price of 4331.35 and a 'BUY' button with a price of 4331.95. Below these are fields for 'Size' (0.6 contracts) and 'Price' (Current or better). There are checkboxes for 'Accept partial fill' and 'Net off'. A dropdown menu for 'Stop' is open, showing options: 'Normal', 'Guaranteed', and 'Trailing'. A dropdown menu for 'Limit' is also open, showing options: 'pts away' and 'USD loss'. A 'Place deal' button is at the bottom.

- a Based on your own views and analysis, click on either the BUY or SELL button to indicate a trade direction
- b This field here indicates the position size of the trade. The bigger the position size, the higher the notional value of the trade
- c There may be instances where the order can only be partially fulfilled. Tick this checkbox if you are agreeable for the trade to be partially filled
- d **Current or better**: To either fill at the current price or a better price
Pts through current: To fill your trade as long as it is within a certain tolerance level (e.g. 3 points from current market price)
Market order: To fill your trade immediately regardless of market price
- e **Normal**: Stop loss level that is subjected to slippages
Guaranteed: Stop loss level that is not subjected to slippages
Trailing: Stop level that automatically adjusts to market movement, following your position when market moves in your direction

- h **Net off**: An existing position would be automatically closed if the new position is in the opposite direction
Force open: enables you to open a position in the opposite direction to an existing bet on the same market.

- f Field to indicate where to cut your losses (stop loss)
- g Field to indicate where to take profits

Trade Ticket

Deal | **Order** | Alert | Info

The 'Order' tab is an instruction for the trading platform to execute a trade when an underlying asset reaches a specific price.

The screenshot shows the 'Order' tab of a trading platform. It features several input fields and options, each highlighted with a red box and a callout letter (a-i):

- a**: Buy/Sell buttons and price fields (4330.35 for SELL, 4330.95 for BUY).
- b**: Size field (USD(\$)) and contracts field (min: 0.5).
- c**: Price level dropdown.
- d**: Expiry dropdown menu with options: 'Good till cancelled' (checked), 'Good till date', 'pts away', and 'USD loss'.
- e**: Stop type dropdown menu with options: 'Guaranteed' (checked), 'Normal'.
- f**: Stop loss field (pts away, min: 1).
- g**: Limit field (pts away).
- i**: Net off (checked) and Force open radio buttons.

At the bottom, there are fields for Margin, Fees and charges apply, and a 'Place order' button.

- a** Based on your own views and analysis, click on either the BUY or SELL button to indicate a trade direction
- b** This field here indicates the position size of the trade. The bigger the position size, the higher the notional value of the trade
- c** The price level refers to the specific price at which you wish to initiate a trade. The ticket will also automatically determines if your order is either a limit or stop order based on the indicated direction (buy or sell) and the price level.
- d** **Good till cancelled**: an order that will work perpetually till you cancel it manually
Good till date: an order that will expire at a specific date/time
- e** **Normal**: Stop loss level that is subjected to slippages
Guaranteed: Stop loss level that is not subjected to slippage
- f** Field to indicate where to cut your losses (stop loss)
- g** Field to indicate where to take profits

i **Net off**: An existing position would be automatically closed if the new position is in the opposite direction

Force open: enables you to open a position in the opposite direction to an existing bet on the same market.

Trade Ticket

Deal | Order | **Alert** | Info

Trading alerts are free, automatic and customisable notifications you'll get whenever your specifications are triggered – price move, events happen and technical conditions change.

1. Price Alerts

The image displays two side-by-side screenshots of the 'Alert' tab in the IG Trade Ticket interface. Both screenshots show the 'Price' and 'Indicator' tabs, with 'Price' selected. The left screenshot shows the 'Price change' alert type selected, with a 'Change' field set to '1' and 'Percent' selected. The right screenshot shows the 'Price level' alert type selected, with a 'Level' field set to 'Buy price'. Callout 'a' points to the radio button selection area. Callout 'b' points to the 'Change' field and its dropdown menu. Callout 'c' points to the 'Time period' dropdown menu.

- a** Choose between price change alert or price level
- b** Price change: Indicate either a percentage or a point change in this field
Price level: Indicate a specific buy/sell price level to trigger the alert
- c** Price change: Indicate the timeframe that the change needs to happen in to trigger the alert. E.g. 1 percent change in 5mins or 50 points change in 1 day

IG Trading 2m ago
Tesla Motors Inc (All Sessions) up 1.01 percent in 1 day.

Trading alerts are free, automatic and customisable notifications you'll get whenever your specifications are triggered – price move, events happen and technical conditions change.

2. Indicator Alerts

The screenshot shows the 'Alert' tab of a trade ticket interface. It features a 'Price' section with a current price of 196.1800 and a target price of 196.3000. Below this is a 'Resolution' dropdown set to 'Daily', a 'Price' dropdown set to 'Mid', and an 'Indicator (Up to 4)' section with an 'Add indicator' button. The 'Alert me' section is highlighted with a red box and contains a dropdown menu with 'Immediately' and 'Once' options. A red callout box 'a' points to the 'Resolution' dropdown, 'b' points to the 'Price' dropdown, 'c' points to the 'Add indicator' button, and 'd' points to the 'Alert me' dropdown. A large red callout box on the right lists various timeframes from 1 minute to Monthly, with '1 minute' selected. A smaller red callout box below it lists 'Ask', 'Bid', and 'Mid' price options, with 'Mid' selected. Arrows point from the 'Alert me' dropdown to two panels: one for 'Immediately' (with 'At the end of the candlestick' option) and one for 'Once' (with 'Every time this occurs' option).

- a** Choose a timeframe (e.g. 15 mins, 1 hour, daily) The indicator alert will be based on this timeframe
- b** Choose either the ask, bid or mid price for the indicator to calculate on
- c** Select indicator from the dropdown list and provide rules for the alert (e.g. When EMA 50 crosses EMA 200)

This detailed view shows the 'Indicator' dropdown set to 'Exponential Moving Average'. The 'Alert me when...' section includes a 'period' input field with the value '50', a 'crosses' dropdown, a 'Period' dropdown, and a '200' input field. There are 'Add indicator' and 'Cancel' buttons at the bottom.

- d** Indicate your preference on the frequency of the alert here

Trade Ticket

Deal | Order | Alert | **Info**

The 'Info' tab shows relevant information pertaining to the market itself

The screenshot shows the 'Info' tab of a trade ticket interface. It features several expandable sections: 'Dealing', 'Codes', and 'Margin requirements'. Callout 'a' points to the 'Dealing' section, 'b' points to the 'Codes' section, and 'c' points to the 'Margin requirements' section. A disclaimer at the bottom states: 'While we have tried to ensure that the information provided is accurate, please note that it is intended for guidance only.'

Dealing

Minimum size	0.50
Contract size per point	USD 1
One point means	1 Index Point
Value of one point	USD 1
Minimum stop distance	1
Minimum guaranteed stop distance	3
Slippage factor	50.0%

Codes

News code	.SPX
-----------	------

Margin requirements

Margins are calculated according to tiered margin factors, based on the size of your aggregate position:

Tier	Position Size (Contracts)	Deposit Factor
1	0 - 500	0.5%
2	500 - 5000	1%
3	5000 - 7500	3%
4	7500 +	15%

We may offer reduced margin on tier 1 positions with a non-guaranteed stop attached. This does not apply to higher tiers, where margin is calculated using the 'without a stop' formula.

Your overall margin requirement is calculated as follows:

Without a stop
Margin = Size x contract size x price x margin factor

With a non-guaranteed stop¹
We calculate your margin with a non-guaranteed stop, compare it to the margin required without a stop, and charge the lower of the two figures as margin.

Margin = (size x contract size x price x slippage factor x margin factor) + (size x contract size x stop distance)

With a guaranteed stop
Margin = (size x contract size x stop distance) + limited-risk premium²

¹Applies to tier 1 position sizes only
²You'll only be charged the limited-risk premium if the guaranteed stop is triggered.

- a** Shows information with regards to the contract chosen
- b** Shows the news code relevant to the market chosen
- c** Explains the margin or deposit requirement to open a new position for the contract

The screenshot shows the IG News interface. On the left is a navigation menu with categories like Indices, FX, Cryptocurrency, Shares, Commodities, Bonds and Rates, ETFs, Options, and Knock-Outs. Below these are Watchlists, Positions, Orders, History, and Alerts. The 'News' item in the menu is highlighted with a red box and labeled 'a'. At the top of the main content area, a navigation bar contains 'Home', 'Top News', 'Recommended', 'Analysis', 'Video', 'Indices', 'FX', 'Shares', 'Commodities', 'All markets', and a search icon. This bar is highlighted with a red box and labeled 'b'. The main content area displays news articles with headlines and timestamps, such as 'Evergrande's debt revamp roadblock hits China property investors' sentiment' and 'Striking Hollywood writers reach tentative deal with studios'. There are also video thumbnails for 'Early Morning Call' and 'Strikes: what's the real cost?'.
