

Whilst IG acts as principal to your Contracts (concerns „CFDs” and “Options”), as defined within the Summary Order Execution Policy, we will take all sufficient steps to consider the execution venues upon which we place reliance to consistently achieve the best possible result for the execution of your orders. These include a number of regulated markets, Market Makers (e.g. Retail Service Providers ‘RSPs’), executing brokers and other liquidity providers or counterparts for our client, which we have listed for you in the following tables (not exhaustive). Both the CFDs and options offered by IG are traded “OTC” (over the counter).

The below comprises a non-exhaustive list of venues which we may consider and which may be updated from time to time.

CONTRACTS FOR DIFFERENCES “CFDS” [IG Group including IG Europe GmbH]

When you trade OTC with IG, you are contracting with us and IG will act as the sole execution venue for your orders. We will assess the venues available to us for the pricing and hedging of your Contracts on a regular basis. Those detailed below are a non-exhaustive list that we believe will allow us to obtain on a consistent basis the best possible result for the execution of your orders. These are subject to change as necessary. IG Markets Ltd. is hedging partner of IGE concerning client orders.
